ANIMAL HEALTH

MEMORANDUM

TO: Fair Officials
FROM: Samantha Beaty, DVM
State Veterinarian

DATE: February 8, 2023

Enclosed is a summary of Tennessee Fair Regulations – health requirements for livestock at fairs and exhibitions.

Special Comments:

1. It is expected that all exhibitors will bring only healthy animals to fairs and exhibitions. Although state and federal animal health officials will be performing some inspections, **fair officials are responsible** for ensuring that all animals entering fairs for exhibition are in overall good health and are accompanied by a Certificate of Veterinary Inspection. Animals showing clinical signs of contagious disease should be sent home immediately. Violations should be reported to the state veterinarian or his agent.
2. Certificate(s) of Veterinary Inspection are to accompany all animal(s) to the respective shows with the exception of in-state Tennessee equine and poultry. In-state Tennessee equine six (6) months of age and older must have a negative Equine Infectious Anemia test within the preceding twelve (12) months. Poultry assembled at shows or exhibitions should be accompanied by evidence of a negative test for Pullorum-Typhoid within 90 days, or **be tested on-site prior to exhibition following strict biosecurity procedures**, or originate directly from a flock which has been certified as Pullorum-Typhoid Clean under the Tennessee Poultry Improvement Plan. As part of increased awareness and surveillance for Avian Influenza and other poultry disease, all bird's physical appearance should be assessed at the time testing is conducted.
3. Health certificates issued in satisfaction of these Tennessee Fair Regulations shall be good for **90** days for Tennessee livestock only.
4. Please note that exhibition requirements for out-of-state livestock are the same as regular import requirements.
5. **Warts and ringworm are considered contagious and infectious diseases and are permissible exclusions only if considered inactive by the issuing veterinarian and noted as such on the Certificate of Veterinary Inspection.**
6. **Scabies, contagious ecthyma (soremouth), footrot, cutaneous fungal and bacterial infections (i.e., club lamb disease, caseous lymphadenitis) are considered contagious and infectious diseases, and are permissible exclusions only if considered inactive by the issuing veterinarian and noted as such on the Certificate of Veterinary Inspection.**
7. **Avian Influenza – All out-of-state poultry must originate directly from a Pullorum-Typhoid Clean Flock and a H5/H7 Avian Influenza Clean Flock, or be accompanied by evidence of a negative Pullorum-Typhoid test within ninety (90) days and a negative official Avian Influenza test within twenty-one (21) days.**

Also, please note that if highly pathogenic Avian Influenza is detected in Tennessee or a neighboring state, the commingling of poultry at fairs and exhibitions may be suspended.

Fair Biosecurity

Below is a summary of recommendations for fair management by the National Assembly of State Animal Health Officials and the National Association of State Public Health Veterinarians to better protect fair attendees from disease:

- Provide easy access to hand washing stations.
- Post informational signage that includes the following messages:
 - No eating or drinking in the animal areas.
 - Wash hands frequently.
 - No pacifiers, sipping cups or strollers in the animal exhibition areas.
- Discourage sleeping in the animal exhibition areas.
- If human or swine influenza-like illness is associated with the exhibition, animal health and public health officials should be notified immediately.
- People who have influenza-like illness should leave the exhibition immediately and seek medical care. They should advise their health care provider about their fair attendance.
- People at high risk for developing severe complications from influenza should limit their exposure to swine.

Also, be aware of the potential exposure of fair attendees to E. coli O157 from animals exhibited on the fairgrounds.

Please retain this material for reference during the 2023 fair season.

1. Animals must be registered with the North American Limousin Foundation (NALF).
2. All cattle shown including calves at the side of the dam must be A) 75% Limousin (NALF percentage, not actual) or greater as indicated on orange NALF registration certificates; or B) Purple-papered Lim-Flex cattle as indicated by NALF registration certificates. 3. If a show does not abide by the NALF MOE show rules exhibitors will not be awarded points for that show.
4. Animals must be properly tattooed and will be inspected at the show. Tattoos must be legible and match the registration certificates. If an animal's tattoo is not legible or cannot be read upon initial processing, it will be ineligible to show and not be allowed to return with a new or corrected tattoo.
5. To maintain a high degree of confidence in Limousin shows NALF reserves the right to disqualify any animal that has been fitted in an unethical manner. Unethical fitting shall include the following: A) Any use of paints, colored show foam, graphite, colored powders, or other substances; animals may be subject to a white-towel test; B) The addition of any hair or hair-like substances, including false tail heads and false polls (false tail switches are allowed); C) The cutting, tearing, or gluing of the hide or underneath the hide or removal of tissue to alter the shape of the animal or injection of any gas, solid, or liquid under the hide to alter the normal conformation; D) Any products, solutions or liquids administered internally or externally to alter the conformation of the animal is prohibited. That includes the use of steroids, growth stimulants, and the act of artificially filling animals internally, which would include stomach pumping, drench tubes, or any other method. EXCEPTION: In the case of severely sick or dehydrated animals, the exhibitor may have fluids or electrolytes administered by the licensed official show veterinarian with the approval of the show superintendent or a NALF representative. That exception is not applicable on show day or weigh-in/check-in day.
6. Bulls older than one (1) year must show with a nose-lead. The Limousin Show Superintendent and the show management reserve the right to disqualify animals deemed unmanageable.
7. Protests against exhibitors, individual animals or fitting violations must be submitted in writing, signed by five (5) active members of the NALF and presented to the show superintendent within 12 hours of the show completion.
8. NALF reserves the right to mouth animals for dental development and to collect DNA samples from any animal.
9. Class/lot size shall be to the discretion of the show superintendent and may not contain more than 20 head. The given lots may be split or combined only within their given division.
10. Calves exhibited alongside dams in the Cow/Calf division are eligible to show as individuals.
11. Animals shown must be solid red or black above the flanks, excluding birthmarks.

At the end of the Open competitions a **Supreme Champion Female** and a **Supreme Champion Bull** will be awarded; chosen from the Grand Champion winners in each class. An **Adult Herdsman Award** will also be presented at the end of the competitions. See page 9 for award requirements.

Rules that apply to Junior Angus Exhibitors: Junior Beef: Angus payout will be \$1,665 for 2023

The American Angus Association, 3201 Frederick Avenue, St. Joseph, MO will participate in premiums offered in individual classes for Junior Angus as included in its standard show classifications, according to the premium schedule based on the number of head shown. The premium assistance provided by the American Angus Association for participation in this show is in addition to the premiums offered by the show itself. The premium assistance should not be used to offset show expense and shall be included in the premium payment distributed by the show to Exhibitors.

1. A **minimum of 15 head** must be shown in the Junior Angus heifer lots to receive American Angus Association premium participation. The show is not required to have all lots to be eligible for premiums. **For 2022 we had 24 head exhibited, so premium assistance will be received for 2023.**
2. Separate lots for bred and owned heifers may be held if the size of the show merits a separate lot.
3. To be eligible for Association premiums, the entries must be recorded in the sole name of the Junior Exhibitor and the issue date on the registration certificate must conform to the individual show's requirements regarding ownership. The association's contribution is included in the total premiums listed in each lot.
4. Premiums from the Association are paid to only registered Angus cattle and only if the registration number is part of the show report provided to the Association. Therefore, all cattle should be registered at the time of entry to make certain they receive the Association's portion of premiums. The association does not pay percentage on premiums offered in Championship lots. The American Angus Association may only count an animal one time toward the total count for premium participation.
5. Exhibitors must have the original registration certificate issued by the American Angus Association available for inspection at the show for each animal or another current proof of ownership issued by the American Angus Association, pedigree look-up. Any animal, upon check-in, which does not have a legible permanent identification mark (ear tattoo marks, freeze branded marks, or hot-branded marks) corresponding to the permanent identification mark on the registration certificate, is ineligible to show. Once disqualified due to incorrect or illegible permanent identification mark, animals cannot be re-identified (tattooed/branded) and rechecked at the show.
6. Any female shown with calf at side, the calf must be the cow's most recent natural calf and the calf must be registered by show day and have the proof of registration at check-in.
7. Only one person at a time shall lead an animal into the show ring.
8. Exhibitors who participate in shows that accept premium monies contributed by the American Angus Association are subject to the Association Rules as found in Breeder's Reference Guide or the Association. These rules are found in Part 2, Association Rules. The rules relating directly with the exhibition of Angus cattle are Part 2: Association Rules; Rule 800 Series; including Rule 800-810. These rules can be found at www.angus.org. Altering the conformation and/or appearance of an animal for Exhibition is prohibited. This includes chinstraps, the covering of white skin, false tail heads (or use of any false hair except for false tail switches). The use of graphite, powders, hemp, or other similar substances externally are also prohibited. Other prohibited products include those used internally such as steroids, illegal or unlicensed pharmaceuticals or artificial filling. Any animal found to be in violation would be barred from showing at any show for which the American Angus Association appropriated funds toward the payment of premiums. No exhibitors, individuals assisting exhibitors or member owners at such show shall be allowed to use any coloring agents, on any animal exhibited. The Association may adopt and implement various test designed to monitor this prohibition, including but limited to "white towel" or "white glove" test. No aerosol cans or other pressurized containers will be allowed in designated line up areas. All animals exhibited are subject to DNA marker or blood type test to verify accuracy of parentage as covered under the Association rules and for other testing as required by the individual show. Authorized representatives of the Association have the authority to enforce the rules set forth herein as well as in the Association rules, including the barring of a registered animal from a livestock show at which it is to be shown, if there are reasonable grounds to believe a violation has occurred.

Department 231 – Open Dairy Show
Dairy Exhibitor Rules and Information

The Appalachian Fair will host a One-Day Dairy Show. The Junior and Open shows will be held simultaneously. Each class/lot will be judged and placed as an Open Show class/lot. Following the Open Show placings, Junior Show exhibitors will be asked to pull forward and receive their Junior Show awards. Therefore, if showing in the Junior Show, a junior exhibitor must be exhibiting the animal.

1. No animal can be entered or exhibited unless recorded in the recognized books of record for their respective breeds. Exhibitors must produce a Certificate of Registry at the request of the department chairperson. Animals that cannot be identified by tattoo or color markings shall not be eligible to be shown.
2. In the Best Udder class/lots, where there are less than three animals shown, premium awards will not be automatic, but are at the discretion of the Judge.
3. Cows must be entered as dry or milking at the time of registration. **No changes will be accepted upon arrival!**
4. Exhibitor is defined as the owner recorded on the Registration Certificate. For the Breeder's Herd class/lot and for the Premier Exhibitors class/lot the definition will be interpreted to include the exhibitor and active 4-H or FFA projects that are maintained on the exhibitor's dairy.
5. The Breeder is defined as the breeder recorded on the Registration Certificate. For the Breeder's Herd and Premier Breeder class/lot the interpretation will be that 'bred by' animals must possess the same prefix or have the same individuals listed as the breeder.

Show Ring Code of Ethics for all Breeds:

The showing of registered dairy cattle is an important part of the promotion, merchandising, and breeding programs of many breeders. Additionally, it is an important part of the program of the Purebred Dairy Cattle Association to stimulate and sustain interest in breeding registered dairy cattle. This relates to both spectators and exhibitors. In this connection, the PDCA believes that it is in the best interest of the breeders of registered dairy cattle to maintain a reputation of integrity and to present a wholesome and progressive image of their cattle in the show ring. It recognizes that there are certain practices in proper care and management of dairy cattle, which are necessary while moving dairy cattle to and between shows that are advisable to keep them in sound, healthy condition so that they might be presented in the show ring in a natural, normal appearance and condition. Conversely, it recognizes certain practices in the cataloging, handling, and presentation of cattle in the show ring that are acceptable. The following practices or procedures are considered unacceptable and defined as being unethical in the showing of registered dairy cattle:

1. Misrepresenting the age and/or milking status of the animal for the class/lot in which it is shown. In any female classes/lots, animals may not be exhibited that are in milk due to unnaturally induced lactation.
2. Balancing the udder by any means other than by leaving naturally produced milk in any or all quarters.
3. Setting the teats with a mechanical contrivance or with the use of chemical preparation.
4. Treating or massaging any part of the animal's body, particularly the udder, internally or externally with an irritant, counter-irritant, or other substance to temporarily improve conformation or produce unnatural animation.
5. Minimizing the effects of cramping by feeding or injecting drugs, depressants or applying packs or using any artificial contrivance or therapeutic treatment excepting natural exercise.

Department 231: Open Dairy Show (Cont.)

6. Blocking nerves to the foot to prevent limping by injecting drugs.
7. Striking the animal to cause swelling in a depressed area.
8. Surgery of any kind performed to change the natural contour or appearance of the animal's body, hide or hair. Not included are the removal of warts, teats, and horns, clipping and dressing of hair and trimming hooves.
9. Insertion of foreign materials under skin.
10. Changing color of hair at any point, spot, or area on animal's body.
11. The use of alcoholic beverages in the feed or administered as a drench.
12. Administration of a drug of any kind or description internally or externally prior to entering the show ring, except for treating a recognized disease or injury and for tranquilizing bulls that may otherwise be dangerous or females in heat. For this Code, the term 'drug' shall mean any substance, the sale, possession, or use of which is controlled by license under federal, state, and local laws or regulations and any substance commonly used by the medical or veterinary professions which affect the circulatory, respiratory, or central nervous system of a cow.
13. Criticizing or interfering with the Judge, show management, or other exhibitors while in the show ring or other conduct detrimental to the breed or show.

At the end of the competitions a **Supreme Champion Cow** and a **Supreme Champion Heifer** will be awarded; chosen from the Grand Champion winner in each class. An **Adult Herdsman Award** will also be presented at the end of the competitions. See page 9 for award requirements.
